

“Facility Management System - Values to owners/operators and market trend”

Topic description

Facility management teams and asset management teams face various challenges in their daily operations. In this seminar, we will discuss how Facility Management Systems (FMS) can help address these challenges and create value with the support of case studies. In addition, we will explore the development trend of FMS and recommend a roadmap to capitalize on the FMS potential.

We are excited to have Mr. Daniel Ng, Director of Business Development at Facility Management Community Technologies Co. Ltd, as our guest speaker.

Daniel Ng
Director, Business Development
Facility Management Community Technologies Co. Ltd

Mr. Daniel Ng is Director, Business Development of FMC Technologies, a shenzhen based digital and intelligent real estate and facility management system service provider.

Daniel has been working in the FM industry in Hong Kong and PRC and was in charge of the FM and asset management functions for Chow Tai Fook Jewelleries, the largest listed jewellery company in the world, CBRE and Standard Chartered Bank. Before that Daniel has been working in senior management positions in the hotel, airline and real estate industry covering asset management, business development, customer experience and project management functions.

Daniel has spearheaded FMC business in Hong Kong and successfully taken Link REIT, the Hong Kong Aircraft Engineering Company (a Swire company) and China Merchant Logistics as their key clients.

With his holistic background in asset management, customer experience and project management in world class airline and hotel, Daniel believes that FM plays a strategic role to create, enhance and sustain the customer experience, brands and values for business.
